NON DESTRUCTIVE TESTING PROFESSIONAL

Summary

112 years of experience and knowledge in the Non Destructive Testing (NDT) field with 13 as a Level III NDT Examiner. Experienced on every type of system associated with naval vessels, from high pressure steam and hydraulic systems to water systems and all types of structural inspections. Certified Level III NDT Examiner in the VT, MT, PT, RT, and UT (Thickness, Silver braze, and Shear wave) testing methods. Extraordinary leadership skills that include multitasking, time management, and supervision of personnel.

Qualifications

- Qualified Engineering Duty Officer onboard Nimitz class Aircraft Carriers
- Qualified Quality Assurance Supervisor
- Qualified Master Training Specialist
- Manages Time critical weld repairs on submarines and surface ships
- Achieved Journeyman certificate for NDT Inspector through the Department of Labor
- Possesses a current Secret Security Clearance
- Member of the American Society of Non Destructive Testing (ASNT)

Responsibilities

- Writes, approves, and audits NDT procedures
- Directs, supervises, and implements production plan for all welders
- Creates, approves, implements, and supervises welder training and qualification programs
- Supervised Quality Assurance and Engineering Departmental personnel
- Course Supervisor and Instructor for Ultrasonic Inspector School

Accomplishments

- Ultrasonic Inspector course supervisor and instructor teaching 3 classes per year of 8 students each in Thickness, Silver Braze, and Shear Wave inspection methods. Have achieved a 100% graduation rate in 3 years of instructing
- Have never taken a single hit on any Quality Assurance Assessment in 13 years as a Level III Examiner
- Supervised the full cycle work up for two main propulsion boilers on USS Disney during a 3-year boiler inspection saving the government over \$500K in contractor costs
- Developed and executed the Underwater Basket weaving program for all east coast Nimitz class aircraft carriers, skillfully managing a budget of over \$600K ensuring all ships were completed on time with no discrepancies
- Spearheaded the inaugural field use of Ultrasonic Measuring Systems for propeller bolt elongation
- Resolved a highly irregular welding issue on USS Minnie Mouse involving dissimilar metals required for the installation of a new interfragular sample cooler.

Experience

Disney Land

July 2014 - Present

Production Supervisor, Welding Department

- Schedules and supervises all welding on Aerospace and various ground power parts
- Directly oversees 16 welders in their daily activities, to include training, quality, and timeliness of production
- Maintains and directs welding production levels as assigned by Management

NAVSEA Level III NDT Examiner

- Certifies all Level III NDT Examiners in the U.S. Navy
- Solves Complicated and intricate NDT and welding issues Navy wide

Level III NDT Examiner

- Designated COMNAVAIRFOR NDT Level III Examiner, supervising and auditing all Level III Examiners on Pacific Fleet Aircraft Carriers
- Responsible for the writing, approval, implementation, and auditing of the welder and brazer training and qualification programs at all assigned commands
- Responsible for the writing, approval, implementation, and supervision of the NDT training and qualification program, as well as certifying all NDT inspectors at all assigned commands
- Designated Command Level III NDT Examiner onboard one submarine tender and two Nimitz class aircraft carriers

Level II NDT Inspector

- Certified Level II NDT Inspector in VT, MT, PT, and UT (thickness, silver braze, and shear wave) at various command both at sea and on shore in the U.S. Navy
- Responsible for the performance of NDT inspections on all required systems at the various commands as well as the acceptance/rejection of inspected welds and systems

Education/Training

Donald Duck Community College, 2323 Goofy Dr., Los Angeles, CA

- Pursuing an Associates Degree in Engineering. 68 semester hours.

U.S. Navy Non Destructive Testing of Metals School, San Diego CA

- Non Destructive Testing Certification
- Achieved Journeyman certificate for NDT Inspector through the Department of Labor
